News Topic: RMHI Mid Term Review (October 2014 to September 2016) Completed

The RMHI program continues to be an outstanding success. The findings of this Mid-Term Review reaffirms the findings from previous evaluations – that the success of RMHI in its awareness raising and education of men (and others) can be attributed to the following key factors stemming from its processes, products and quality of people employed:-

- a) The use of a variety of approaches helps to embed the health & wellbeing message;
- b) Community ownership & community champions – message matches the need;
- c) Demand driven and responsiveness is inherent in the model;
- d) The skill, personality of RMHI staff;
- e) Linkages established between target groups and other health providers;
- f) Holistic (non-medicalized) model of health & wellbeing.

Owen and the RMHI Team take this opportunity to wish you all a wonderful Christmas and a safe and prosperous 2017.
