News Topic: RMHI Final Evaluation 2014 – 2018

The Final Evaluation highlights some positive aspects of the RMHI program. In particular:

- **Promoting Best Practice Model** – RMHI is recognized as a “best practice” leader in the field of men’s health and wellbeing throughout the State and Nationally.
- **RMHI is successful** because of its quality products and presentations, targeted and effective communications, and the fact that its service delivery model is male friendly and appropriate for regional men.

It also reinforces our current Business Case and will assist us in securing long-term funding of this project.
